PSYCHOLOGISCHES EXPERIMENTALPRAKTIKUM

SOSE 2025

Lecturer: Lingyue Chen

Who I am

Lingyue Chen, Dr.

Postdoctoral Researcher

Time Perception

Multisensory Perception

Delay Adaptation

Sensorimotor Integration

Office: S1|15 42
Email: lingyue.chen@tu-darmstadt.de

TECHNISCHE UNIVERSITÄT DARMSTADT

Centre for Cognitive Science

Sensorimotor Control & Learning

- Joint Meeting (2 groups)
  - Week 2-4
    - S1|15 015a
    - Tuesday 13:30
- Group Meeting (1 group)
  - Week 5-12
    - S1|15 128
    - Tuesday 13:30 / 15:00

Week	Date	Topics
1	24.04	Project pitches and group assignments
2	29.04	Organization & preparation
3, 4	06.05, 13.05	Research question & study design
4 – 6	14.05 – 30.05	Experiment coding
7 – 9	02.06 – 20.06	Data collection
10, 11	23.06 – 04.07	Data analysis & interpretation
12, 13	07.07 – 18.07	Poster preparation
14	25.07	Poster session
19	28.08	Written report submission

Arduino

Reading

- **Literature**

  - **Van Dam, L. C., & Ernst, M. O. (2015). Mapping shape to visuomotor mapping: learning and generalisation of sensorimotor behaviour based on contextual information. *PLoS computational biology, 11*(3), e1004172.**

  - **Negen, J., Bird, L. A., Slater, H., Thaler, L., & Nardini, M. (2023). Multisensory perception and decision-making with a new sensory skill. *Journal of Experimental Psychology: Human Perception and Performance, 49*(5), 600.**

  - **Ballardini, G., Krueger, A., Giannoni, P., Marinelli, L., Casadio, M., & Scheidt, R. A. (2021). Effect of short-term exposure to Supplemental Vibrotactile kinesthetic feedback on goal-Directed movements after stroke: a proof of Concept Case Series. *Sensors, 21*(4), 1519.**

Take Home Reading Qs

Task

What is target-pointing task?

What about reaching & avoiding task?

Sensorimotor mapping

What does map between sensory stimuli & target distance mean?

Pre- / Post-Test & Training

How to train & test participants' performances
