# PSYCHOLOGISCHES EXPERIMENTALPRAKTIKUM

## SOSE 2025

Lecturer: Lingyue Chen

TECHNISCHE UNIVERSITÄT DARMSTADT

Centre for Cognitive Science

Sensorimotor Control & Learning

| Week | Date | Topics |
|---|---|---|
| 1 | 24.04 | Project pitches and group assignments |
| 2 | 29.04 | Organization & preparation |
| 3, 4 | 06.05, 13.05 | Research question, study design, grouping |
| 4 – 6 | 14.05 – 30.05 | Experiment coding & preparation |
| 7 – 9 | 02.06 – 20.06 | Data collection |
| 10, 11 | 23.06 – 04.07 | Data analysis & interpretation |
| 12, 13 | 07.07 – 18.07 | Poster preparation |
| 14 | 25.07 | Poster session |
| 19 | 28.08 | Written report submission |

# Task

**Sensorimotor mapping**

**Vibrotactile Intensity → Spatial distance**

- How people naturally interpret vibrotactile intensity without visual guidance
- Whether vibrotactile intensity can be learned and transformed into reliable spatial distance cue

# Meeting Time

- Group Meeting
  - S1|15 128, Tuesday 13:30 / 15:00
  - Weekly plan
    - **Week 5 – 6: Task group**
    - Week 7 – 9: On request
    - Week 10 & 11: Project group

Experiment

Coding

- Joint Meeting (2 groups)
  - S1|15 015a, Tuesday 13:30
  - Week 12
  - Present your results to the other project group

| Week | Date | Topics |
|---|---|---|
| 1 | 24.04 | Project pitches and group assignments |
| 2 | 29.04 | Organization & preparation |
| 3, 4 | 06.05, 13.05 | Research question & study design |
